Inför montering

- Läs hela monteringsanvisningen innan du påbörjar monteringen! Följs inte anvisningen kommer kanske produkten inte fungera optimalt och garantin kommer inte att gälla.
- Willab garden förbehåller sig rätten till ändringar i material, konstruktion och design.
- Kolla igenom din leverans så att denna är komplett och så att ingenting har blivit skadat under transporten.
- Skruv för infästning i grund ingår ej. Rådgör med fackman för korrekt infästning i ditt underlag.
- För att montera ett räcke då fallhöjden är över 3 m krävs att räcket är 1,1m högt. Vilket är höjden vid val av överliggare.
- Vidare information gällande montage på höjd över 3 m från mark hänvisas till Boverkets Byggregler, avsnitt 8:352 Skydd mot fall genom glas samt 8:2321 Räckena.

Skötselråd

Regelbunden och rätt utförd rengöring med passande rengöringsmedel rekommenderas för att förlänga glasräckets livslängd.

Aluminiumprofiler

- Använd mild såpa, handdiskmedel eller bara vanligt vatten räcker för att rengöra profiler.

Glas

- Glas skall rengöras som vanligt glas.
- Använd vanliga fönstertvättmedel, rikligt med vatten och mjuk, luddfri trasa eller gummiskrapa.
- Rödspit eller aceton löser vissa föroreningar. Sidol, Häxan, Brillo eller annat skonsamt putsmedel kan polera bort andra föroreningar. Putsmedlet tvättas bort med rödspit. Tvätta sedan glaset på vanligt sätt.
- Använd inte skrapa, metallföremål eller stålull för att skrapa bort hårt sittande smuts.
